

ECON 3640 - Assignment 3

DEADLINE: 06.23.2021

Find “**Edwin T. Jaynes - Probability Theory The Logic of Science - Chapter 3**” in “**Files**” folder. You don’t have to figure out the technical aspects of the chapter. Starting from “**Sampling With Replacement**” (page 18/30) Jaynes is challenging the conventional views on how we think of sampling. Write no more than a page to summarize Jaynes’ views, explain how his views differ from conventional views and explain what Mind Projection Fallacy is.
